Patient Instructions

Follow any instructions given to you by your doctor. Please call your doctor if you have any questions prior to having your lab tests collected or call the lab for assistance.

Diet & Preparation

Fasting: If your doctor requests fasting blood tests, please do not eat or drink anything except water after midnight the night before.

Glucose Tolerance Testing: This is a fasting blood test. Follow your physician's instructions. Nothing to eat or drink after midnight before the test. NO GUM, MINTS, COFFEE or SODA! Depending on the tests ordered, this procedure may take as long as 4 hours to complete. A specimen is collected once each hour based on the tests requested by your physician.
